WELLNESS BLOOMS

As spring awakens in Brickell, wellness is in full bloom at **Panorama Tower**, where healthy living isn't a trend; it's woven into the lifestyle experience. Residents enjoy an ecosystem of vitality, featuring a state-of-the-art fitness center, serene yoga, workout studios, and complimentary fitness programming designed to meet residents wherever they may be in their wellness journeys. The **Panorama Perks Program** expands that lifestyle into the neighborhood, offering insider access to over 100 local partners. From healthy eateries to boutique fitness studios and premier recovery spas, residents enjoy a connected, walkable way of living that supports balance. The season's freshest addition is **Nude Miami**, a boutique organic grocer and café on the ground floor. With clean-ingredient groceries, prepared foods, juices, smoothies, coffee and matcha, residents can embrace fresh, health-conscious convenience directly at their doorstep. At Panorama Tower, wellness doesn't just flourish this season...it thrives all year long: PanoramaTower.com • *Anja Maltav*
